We have pre-sold all of the first phase and Paul asked us to stop selling so many! What a great problem. Construction is trying to catch up with the sales. I can't remember how long our contract was for, but we would like to take a temporary break until he can catch up and we can reset our prices according to construction cost fluctuations. Our State has sold most of them for us and we are thrilled with the advertising.

Thanks so much and I'll be in touch!
